

## **I Spy**

This is a great game that can be played in your home, outdoors or even waiting in a line!

### **Directions**

1. Player 1 looks around the room and chooses a color of an object that all the other players can see.
2. Once the player has picked their object, they say, “I spy with my little eye something that is (color of the object).” Examples could be a banana, a shoe, or a trashcan.
3. Other players take turns guessing objects that are that color.
4. The player who guesses the object correctly is the winner.
5. Choose a different player to get a turn.

### **Variations**

- I spy something that begins with the /b/ sound
- I spy something that rhymes with tug
- I spy something that is shaped like a circle (math focus)
