

Holiday Scrapbook

Help your child remember all the fun things they did over a holiday by creating a special scrapbook together. Keep it in a special place as your child will love being able to look back at the drawings, photos and information that's been included.

Possible Items

- Photos, drawings or small paper souvenirs like tickets, postcards or park maps
- Blank paper or a notebook
- Crayons, markers, or colored pencils
- Stapler or tape

Directions

1. Gather Memories

Talk with your child about the fun things they did during the holiday such as trips, playdates or visits to old or new places.

2. Create the Pages

On each page, ask your child to draw a picture or glue a photo of one special memory.

3. Add Words

Encourage your child to think of a short caption to write under the picture. If they are comfortable, have them write the caption, but if they are hesitant, they can dictate what they want you to write.

4. Make a Cover

Talk with your child about a title like, "Spring Break 2026" or "Winter Holiday Memories."

5. Put it Together

Staple or tape the pages along one side to make it feel like a real book

6. Read and Share

Look through the completed scrapbook and talk about the activity you see on each page. This scrapbook will be something they will treasure and look back on when they are older.
