

### **Five Finger Rule**

#### **Steps to Using Five Finger Rule**

1. Have your child flip to any page in the book they want to read.
2. Put a finger up for every word they struggle to read on the page.
3. If you have put up 5 fingers before your child finishes the page, the book is too challenging for your child to read independently.
4. If your child is very eager to read the book, try a different page. It's possible that the page you selected could be more difficult than other pages in the story.
